JAN 1 1957

MEMORANDUM FOR: Director of Training

SUBJECT : Finance Training

REFERENCE : Memorandum from Director of Training to SSA-DD/S, dated 17 December 1956, same subject.

1. This staff concurs with your plan to initiate training in field financial procedures for persons going to Class B overseas stations, as discussed in the above reference. It is believed that such training will be particularly useful if it includes, as you indicate, current financial records of the stations to which the trainee is being assigned.

2. It is assumed that specific topics in the course of instruction and the time allotted to each will be coordinated with the Office of the Comptroller. Training Officers within the Deputy Director (Plans) area would also appreciate an opportunity to audit portions of the course from time to time and to advise with respect to changes in the scope or emphasis of material presented, as experience may indicate desirable.

3. This matter has been discussed with Acting Chairman, Clandestine Services Training Committee, who concurs with these views.
